with Worldwide Psychotherapist and Author
DR. FRANK CARDELLE

WE FIND:

Some People Love Power
Some People Embrace the Power of Love
Some people Use Sex and Money to Influence Relationships
.....While Still Others Believe.....'MONEY'..... Can Bring Them Ultimate Power, Love,
Sex and..... HAPPINESS.

LOOKING MORE CLOSELY:

Today in our "Consumer Mad World" we all have encountered these four factors in some manner. Some more than others. At times they can hold us in the grip of a very powerful legacy of expectation and desire. For some people they can even possess unhealthy addictive traits.

They bring us both lessons and challenges as well as joy and pain. The more we are confronted by these the more we come to understand the need for us to better handle and balance them in our everyday lives and relationships.

In this unique workshop participants will have the opportunity to do just this.

CONTENT and FOCUS:

Here, Dr. Cardelle will draw from his over 25 years of fieldwork in Humanistic and Transpersonal Psychology in 35 countries throughout the world. Additionally, he will also share what he has gained from his own personal life adventures. We will use large and small group dynamics, personal process, games, ritual and other tools that evoke our creative expression and temperament. Together, everyone who comes will help create and participate in a very rich, learning, change and growth experience.

DR. CARDELLE TELLS:

"I invite you to be ready to share the lessons and stories from life that have challenged us all. So that we can learn of their hidden gifts and messages for our lives. Also, be prepared for some Fun, Tears, Surprise and Laughter."
